Alloy Wheel Cleaner

• Key Features

- Removes brake dust and stubborn dirt
- Suitable for all types of alloy wheels

NET
CONTENTS
500ml

• Product Information

Farécla Smart Alloy Wheel Cleaner effectively cleans away stubborn brake dust and dirt from most alloy wheels.

• Application Instructions

- Rinse the alloy wheel with water to remove any loose debris.
- Shake the trigger spray bottle before use. Wearing protective gloves, spray the cleaning fluid sparingly onto the surface of the alloy wheel.
- Using a clean brush, agitate the surface to loosen the dirt/brake dust.
- Rinse the alloy wheel with clean water. Any stubborn dirt can be removed by re-agitating the surface. A further application of the cleaner is not required.
- Finally ensure the alloy wheel is rinsed thoroughly and allow to dry naturally.
- Finish with Farécla Hi Gloss Spray Wax with a Farécla Smart Uniball.
