UniBall

Foam Polishing Ball

• Key Features

- Fast and easy way to professionally polish a variety of surfaces
- Can be used for car body or alloy wheel polishing
- Breathable pack helps prolong the life of the UniBall

• Product Information

The Farécla Smart UniBall Foam Polishing Ball is the easy way to professionally polish a wide variety of surfaces.

• Application Instructions

For use on alloy wheels, paintwork and headlight covers, the UniBall is the essential tool to speed up the polishing process and can also tackle those difficult to polish areas such as spoilers and curved bumpers.

Simply attach the UniBall to any variable speed drill, and in a matter of minutes, you'll achieve a perfect, high gloss finish. For use on its own, or with a suitable polish.
